

WIRE REINFORCED SILICONE CANNULA

ENGINEERED FOR YOU

From the very beginning, we partner with you closely to optimize designs for manufacturability, address challenges, and deliver components that meet your exact requirements.

- Inner Diameters: Ranging from less than 0.050" to over 1"
- Design Options: Single lumen and multi-lumen configurations
- Dedicated Processing: Manufactured in environments specifically optimized for silicone processing

STRENGTH & FLEXIBILITY

When your device demands a balance of strength and flexibility, turn to Rose Medical for wire-reinforced silicone cannulas. Engineered to provide superior kink and crush resistance while leveraging the unique properties of silicone to provide you with the highest quality cannula.
